Romanian-Agribusiness Succes Stories

Bio Cătina, Agricultural Cooperative

Mădălina Giurescu, representative of IH Bio Danubius is an important participant of the Organic Climate Net.

The cooperative cultivates 4 different varieties of organic sea buckthorn (Clara, Mara, Cora, Pitesti), with producers having a vast portfolio of organic products using their own raw materials.

One year after its establishment, we have almost doubled the area, reaching today 82 hectares and nine cooperative members, and we still have membership applications being processed.

Florin Niculescu executive director at Bio Cătina Agricultural Cooperative
